

TECHNICAL DATA SHEET

Order No. 325-1023

Item/Model SARO Ice Cube Machine
model EB 15 S PRO

GTIN 4017337069491

- Material: (housing) stainless steel; (lid) plastic, black
- With side openings for safe transport
- PRO version equipped with DC technology for energy saving
- On/off switch on the back of the device
- 3 hollow ice cone sizes can be selected via the display:
approx. Ø 23 x H 29 mm, approx. Ø 25 x H 32 mm and approx. Ø 27 x H 33 mm
- For approx. 15 kg / 24 h
- Storage tank: 1.4 kg
- Water tank: approx. 2 liters
- Air cooling
- Suitable for ambient temperatures from 10 to 40 °C
- Connection: 230 V - 50 Hz - 0.110 kW
- External dimensions: W 356 x D 398 x H 430 mm
- Weight (net/gross): 15,2 / 17,8 kg
- Refrigerant: R600a

Origin China

customs tariff no. 84186900

Importer Saro Gastro-Products GmbH, Sandbahn 6, 46446 Emmerich am Rhein, GERMANY

SAFETY & WARNING INSTRUCTIONS

Order No. 325-1023

Item/Model SARO Ice Cube Machine
model EB 15 S PRO

GTIN 4017337069491

Safety and Warning Instructions

- Place the device exclusively on a stable, level, and non-slip surface.
- Before connecting, ensure that the mains voltage (230 V / 50 Hz) matches the specifications on the rating plate.
- Ensure that ventilation slots and openings are free from obstructions and regularly cleaned to maintain optimal air circulation.
- After transportation or significant tilting of the device, allow it to stand upright for at least 24 hours before switching it on to prevent damage to the cooling circuit.
- Do not operate the device near heat sources, in direct sunlight, or in humid environments.
- Children and unauthorized persons must not operate the device or remain unsupervised nearby.
- Do not store or use flammable, explosive, or chemical substances inside or near the device.
- Never clean the device with a water jet or immerse it in liquids to avoid the risk of electric shock and short circuits.
- Always switch off the device, disconnect it from the power supply, and allow it to cool completely before cleaning, maintenance, or extended periods of non-use.
- Do not use damaged cables or plugs; replacements must only be carried out by qualified personnel.
- Do not use adapters, extension cords, or multi-socket outlets, as they may cause overheating and fire hazards.
- After a power outage or disconnection from the power supply, wait at least 5 minutes before switching the device back on to prevent damage to the compressor.
- The device is designed solely for ice cube production. Any other use may cause damage and void the warranty.
- The refrigerant is flammable; if the cooling circuit is damaged, ventilate the room well and avoid open flames.
- Repairs and maintenance must only be performed by qualified personnel.
- Ensure the water drain has a sufficient slope to allow proper drainage.
- If visible damage or malfunctions occur, immediately stop operation and contact qualified personnel.
- The ice cube storage container is not suitable for long-term storage; ice cubes should be removed after each cycle to prevent clumping.
