## SAFETY & WARNING INSTRUCTIONS

Order No. **330-3265**

Item/Model **SARO Built-in Cooling Display Case  
model IRENE 120 BI**

GTIN **4017337069057**

### Safety and Warning Instructions

- Place the device only on a stable, level, and non-slip surface.
- Ensure that the mains voltage corresponds to the information on the nameplate.
- Before first use, remove all packaging materials and protective films completely.
- After transport, allow the device to stand upright for at least 12 hours before switching it on to prevent damage to the refrigerant circuit (R290).
- Ensure ventilation slots are not blocked to maintain optimal air circulation and cooling.
- Do not place the device near heat sources or in direct sunlight.
- Do not use electrical devices or heating sources inside the unit.
- Never clean the device with a water jet or high-pressure cleaner to avoid the risk of electric shock and short circuits.
- Do not use damaged cables or plugs. Replacement must be carried out by qualified personnel.
- Always switch off the device and disconnect it from the power supply before cleaning, maintenance, or repair.
- The refrigerant is flammable; if the cooling circuit is damaged, ventilate the room thoroughly and avoid open flames.
- Children must not use the device unsupervised or play near it.
- The device is designed exclusively for storing food; any other use may cause damage and void the warranty.
- Handle the display case carefully (fragile glass). Do not lean heavy objects against it or strike it.
- Immediately stop operation if visible damage or malfunctions occur, and contact qualified personnel.
