

TECHNICAL DATA SHEET

Order No. 330-1070

Item/Model SARO Refrigerated Display
model SIMON

GTIN 4017337330126

- Material: (housing) stainless steel
- Night curtain
- 3 non-adjustable shelves, powder-coated steel
- 4 x LED-interior-lighting, separately switchable
- Digital temperature control
- Forced air cooling
- Automatic defrost
- Temperature range: +2 / +10 °C
- Connection: 230 V - 50 Hz - 1.3 kW
- Shelves: 3x W 445 x D 280 mm
- Capacity (gross): 220 liters
- External dimensions: W 494 x D 674 x H 1742 mm
- 4 castors, 2 lockable
- Weight (net/gross): 106 kg
- Refrigerant: R290
- Energy efficiency class: F (spectrum A to G)

Origin China

customs tariff no. 84185019

Importer Saro Gastro-Products GmbH, Sandbahn 6, 46446 Emmerich am Rhein, GERMANY

SAFETY & WARNING INSTRUCTIONS

Order No. 330-1070

Item/Model SARO Refrigerated Display
model SIMON

GTIN 4017337330126

Safety and Warning Instructions

- Place the device only on a stable, level, and non-slip surface.
- Ensure that the mains voltage corresponds to the information on the nameplate.
- Keep ventilation slots and openings clear to ensure adequate air circulation and cooling performance.
- After transport or tilting the device more than 45 degrees, allow it to stand upright for at least 24 hours before switching it on to prevent damage to the cooling circuit.
- Do not operate the device near heat sources, direct sunlight, or in damp areas.
- Children and unauthorized persons must not operate the device or be left unsupervised near it.
- Do not store or use flammable, explosive, or chemical substances in or near the device.
- Never clean the device with a water jet or immerse it in liquids to avoid the risk of short circuits and electric shock.
- Before cleaning, maintenance, or extended periods of non-use, switch off the device, disconnect it from the power supply, and allow it to cool completely.
- Do not place hot food or uncovered liquids in the device to prevent condensation or icing problems.
- Do not use damaged cables or plugs; replacements must be carried out by qualified personnel.
- Do not use adapters, extension cords, or multi-socket outlets, as they can cause overheating and pose a fire risk.
- After a power outage or disconnection, wait at least 5 minutes before switching the device back on to prevent damage to the compressor.
- The device is intended exclusively for storing and displaying food and beverages; any other use may cause damage and void the warranty.
- The refrigerant is flammable; in case of damage to the cooling circuit, ventilate the room thoroughly and avoid open flames.
- Repairs and maintenance must only be performed by qualified personnel.
- Handle glass surfaces with care, as they are fragile. Damaged glass surfaces must be replaced immediately by qualified personnel.
