SAFETY & WARNING INSTRUCTIONS

Order No. **700-4730**

Item/Model **SARO Warming bridge
model 2000 mm**

GTIN **4017337047420**

Safety and Warning Instructions

- Place the device exclusively on a stable, level, and heat-resistant surface.
- Before first use, ensure all components are complete and undamaged. If visible damage is found, do not use the device and contact the dealer.
- The device must be connected by qualified electrical personnel, as it is supplied without a plug.
- Children and unauthorized persons must not operate the device or be left unattended near it.
- During operation, the surfaces of the device, particularly the ceramic heaters, can become very hot – risk of burns.
- The heat bridge is intended exclusively for keeping food warm. Any other use is not permitted and may result in damage or accidents.
- Maintain a minimum distance of 30 cm from walls and other sensitive or flammable materials.
- Do not operate the device in damp environments or outdoors in rainy conditions.
- Before cleaning or maintenance, switch off the device, disconnect it from the power supply, and allow it to cool completely.
- Clean the device with a damp cloth and mild dish soap. Do not use abrasive cleaners, scouring pads, or pressure washers.
- Ensure the power cord is not bent, pinched, or damaged. If the cord is damaged, stop operation immediately and contact qualified personnel.
- Repairs must only be carried out by authorized personnel using original spare parts.
- Do not leave the device unattended during operation.
- During initial operation, slight odor development may occur, which will disappear shortly.
- Dispose of packaging materials safely and keep them out of reach of children, as they pose a suffocation hazard.
- The device is not suitable for storing liquids or heavy objects on its surface.
- The main switch must always remain accessible to quickly turn off the device in an emergency.
