

TECHNICAL DATA SHEET

Order No. 323-1225

Item/Model SARO Combined Ventilated
Refrigerator and Freezer
model GN 120 DTV

GTIN 4017337324040

- Material: (housing and interior) stainless steel
- Refrigeration left, freezer right
- Doors self-closing, lockable
- 6 height-adjustable grids
- Digital temperature control (DIXELL)
- Insulation: 60 mm
- Forced air cooling
- Automatic defrost
- Temperature range: -2 / +8 and -18 / -22°C
- Connection: K: 230 V - 50 Hz - 0.300 kW,
T: 230 V - 50 Hz - 0.600 kW
- Grids: 6x W 540 x D 630 mm
- Capacity: 2x 537 liters
- Internal dimensions: 2x W 560 x D 680 x H 1380 mm
- External dimensions: W 1340 x D 830 x H 2010 mm
- Weight: 236 kg
- Refrigerant: R290

Origin China

customs tariff no. 84181020

Importer Saro Gastro-Products GmbH, Sandbahn 6, 46446 Emmerich am Rhein, GERMANY

SAFETY & WARNING INSTRUCTIONS

Order No. 323-1225

Item/Model SARO Combined Ventilated
Refrigerator and Freezer
model GN 120 DTV

GTIN 4017337324040

Safety and Warning Instructions

- The device must only be connected to a properly installed outlet that is grounded and matches the specifications on the rating plate.
- The refrigerant is flammable; avoid damage to the cooling circuit. In case of a leak, ventilate the room well and avoid open flames.
- Children and unauthorized persons must not operate the device or be left unattended near it while it is in operation.
- Never clean the device with a water jet or high-pressure cleaner; risk of electric shock.
- Ventilation slots must remain free of obstructions to ensure optimal air circulation and avoid overheating.
- The cable must not be routed over sharp edges or hot surfaces, and should be regularly checked for damage. If damaged, do not use the device.
- After transport or tilting of the device, leave it standing for at least 5 hours before switching it on to avoid damage to the refrigerant circuit.
- The device should not be placed near heat sources such as radiators or ovens. Avoid direct sunlight and strong drafts.
- Do not place hot food or open containers of liquid in the cooling device to prevent condensation issues and inefficient cooling.
- Always switch off the device and unplug it before cleaning or performing maintenance.
- Do not make any modifications or alterations to the device; repairs must only be carried out by qualified personnel.
- Use the device only for its intended purpose, such as the storage of food. Using it for other purposes may cause damage and void the warranty.
- The device must not be used for storing medications, chemicals, or flammable substances.
- In case of malfunctions or faults, immediately stop operation and contact a qualified dealer.
