Safety and Warning Instructions

- Ensure the device is placed on a stable, smooth, and load-bearing surface before use.
- Connect the device only to a power outlet that complies with CE standards and is equipped with a residual-current circuit breaker (RCD).
- Children and unauthorized persons are not allowed to operate the device.
- Always unplug the device from the power supply and ensure it is switched off before cleaning or maintenance.
- The blade is extremely sharp; always wear cut-resistant gloves during maintenance and cleaning.
- Do not cut frozen, deep-frozen, or bone-containing foods, as this can damage the device.
- Do not remove or tamper with integrated safety features such as the blade cover or protective mechanisms.
- In case of malfunctions or damage, immediately stop using the device and contact qualified personnel.
- Ensure that no one is near the device during operation to avoid injuries.
- Keep the workspace and surrounding area clean and free from slippery or hazardous materials.
- Avoid wearing loose clothing or having open hair to minimize the risk of entanglement.
- Turn off the motor immediately if unusual noises or vibrations occur, and have it inspected.
- The device is intended solely for its designated purpose of cutting food; any other use is prohibited.
- Unplug the device during extended pauses or when not in use to ensure safety.
- Dispose of packaging materials properly and keep them out of reach of children.
- Repairs and component replacements must only be carried out by authorized personnel.
