

**MOD : CBT51/EV**

**Production code : LF05TE-M24T**

**10/2025**

**WIRING DIAGRAM**  
**SCHEMA ELETTRICO**  
**SCHÉMA DE CÂBLAGE**

|  | DESCRIPTION |                           |  | DESCRIPTION |                            |
|--|-------------|---------------------------|--|-------------|----------------------------|
|  | E1          | Power electronic board    |  | AR          | Auxiliary relay            |
|  | M1          | Compressor motor          |  | R1          | Frame resistance           |
|  | M2          | Condenser fan motor       |  | IN 1        | Pressure switch            |
|  | M3          | Cell fan motor            |  | PB1         | Pin temperature probe      |
|  | MA          | Terminal block connection |  | PB2         | Cell temperature probe     |
|  | EV1         | Solenoid valve            |  | ANF         | Anti-noise filter FC790Y2F |
|  | MS          | Terminal board            |  | IN 2        | Micro port                 |
