Safety and Warning Instructions

- Place the device exclusively on a stable, level surface.
- Ensure that the mains voltage matches the specifications on the rating plate.
- Do not operate the device near flammable materials or heat sources.
- Children and unauthorized persons must not operate or misuse the device.
- Do not block or cover the ventilation slots to prevent overheating.
- If visible damage or malfunctions occur, immediately stop operation and have the device inspected.
- Clean the device only when it is switched off and disconnected from the power supply.
- Use only original spare parts and accessories approved for this device.
- Do not place hot food or open containers with liquids inside the device to avoid condensation and icing issues.
- The refrigerant is flammable.
- If the cooling circuit is damaged, immediately switch off the device, disconnect it from the power supply, and ventilate the room. Avoid open flames or sparks.
- Do not use mechanical devices or tools to speed up the defrosting process, as this could damage the cooling circuit.
- Repairs and maintenance must only be carried out by qualified personnel.
