

TECHNICAL DATA SHEET

Order No. **330-3210**

Item/Model **SARO Countertop Cooling
model ALICE 202**

GTIN **4017337068906**

- **Material:** (housing) stainless steel, (sides, viewing window) tempered glass, (door frame) plastic
- **Double glazed** on all 4 sides
- **2-part sliding door** on the back
- **2 grids**, adjustable height, upper grid: W 1156 x D 335 mm, lower grid: W 1156 x D 367 mm
- **Anti-fog ventilation**
- **LED-interior-lighting** on top
- **Digital temperature control**
- **Circulating air cooling**
- **Automatic defrost**
- **Temperature range:** 0 / +12 °C
- **Connection:** 230 V - 50 Hz - 0.400 kW
- **Capacity (gross):** 200 liters
- **External dimensions:** W 1219 x D 568 x H 686 mm
- **Weight (net/gross):** 90 / 94 kg
- **Refrigerant:** R290
- **Energy efficiency class:** C (spectrum A to G)

Origin China

customs tariff no. 84185019

SAFETY & WARNING INSTRUCTIONS

Order No. **330-3210**

Item/Model **SARO Countertop Cooling
model ALICE 202**

GTIN **4017337068906**

Safety and Warning Instructions

- Only place the device on a stable, level, and non-slip surface.
- Ensure the mains voltage matches the specifications on the rating plate.
- All packaging materials and protective films must be completely removed before first use.
- After transport, let the device stand upright for at least 12 hours before switching it on to prevent damage to the refrigerant circuit.
- Ensure the ventilation slots are not blocked to maintain optimal air circulation and cooling.
- Do not place the device near heat sources or in direct sunlight.
- Bottles with high alcohol content must be tightly sealed and stored upright in the device.
- Do not use electrical devices or heating sources inside the appliance.
- Never clean the device with a water jet or high-pressure cleaner to avoid the risk of electric shock and short circuits.
- Do not use damaged cables or plugs. Replacement must only be carried out by qualified personnel.
- Always switch off the device and disconnect it from the power supply before cleaning, maintenance, or repairs.
- Clean the door seal with water only and ensure it remains intact to prevent energy loss.
- The refrigerant is flammable; if the cooling circuit is damaged, ventilate the room well and avoid open flames.
- Children must not use the device unsupervised or play near it.
- The device is intended solely for the storage of food; any other use may cause damage and void the warranty.
- Regular cleaning of the condenser by qualified personnel is recommended to extend the device's lifespan.
- Handle the display case with care (fragile glass). Do not lean heavy objects against it or strike it.
- If visible damage or malfunctions occur, immediately stop operation and contact qualified personnel.
