## SAFETY & WARNING INSTRUCTIONS

Order No. 27-3006

Item/Model SARO Salad dryer  
model ES-200

GTIN 4017337071647

### Safety and Warning Instructions

- The salad spinner is exclusively designed for use in professional kitchens and must be placed on a stable, level, and non-slip surface.
- Before operation, ensure that the device is properly assembled and all cables are undamaged.
- The mains voltage must match the specifications on the rating plate.
- Children and unauthorized persons must not operate the device or be left unattended near it.
- Moving parts can cause injuries during operation. The lid must always be closed during use.
- Never clean the device with a water jet or immerse it in liquids to avoid short circuits and damage to electrical components.
- Before cleaning, maintenance, or extended periods of non-use, turn off the device, disconnect it from the power supply, and ensure that all parts have come to a complete stop.
- The salad spinner is exclusively suitable for drying leafy salads. Any other use may cause damage or affect safety.
- The draining basket must not be overloaded. The maximum load per cycle is 5-8 kg of leafy salad.
- Repairs and maintenance should only be carried out by authorized personnel. Use only original spare parts.
- During operation, no foreign objects or tools should enter the device to avoid damage or accidents.
- Properly dispose of packaging materials and keep them out of reach of children to avoid suffocation hazards.
- The device should be regularly checked for functionality and cleaned to maintain hygiene standards and extend its lifespan.
- If the device produces unusual sounds or vibrations, immediately stop operation and notify qualified personnel.
