

TECHNICAL DATA SHEET

Order No. **330-3240**

Item/Model **SARO Cooled Countertop
model TAMAR 186**

GTIN **4017337069033**

- **Material:** (housing) stainless steel, (sides, viewing window) tempered glass, (door frame) plastic
- **4-sided double glazed**
- **2-part sliding door on the back**
- **3 adjustable chrome-plated shelves, W 813 x D 374 mm**
- **LED-interior-lighting, top**
- **Digital temperature control**
- **Fan cooling system**
- **Automatic defrost**
- **Suitable for climate class: 4**
- **Temperature range: 0 / +12 °C**
- **Connection: 230 V - 50 Hz - 0.330 kW**
- **Capacity (gross): 186 liters**
- **Internal dimensions: W 859.5 x D 490 x H 450.5 mm**
- **External dimensions: W 874 x D 574 x H 887 mm**
- **Weight (net/gross): 80 / 83 kg**
- **Refrigerant: R290**
- **Energy efficiency class: B (spectrum A to G)**

Origin China

customs tariff no. 84185019

SAFETY & WARNING INSTRUCTIONS

Order No. **330-3240**

Item/Model **SARO Cooled Countertop
model TAMAR 186**

GTIN **4017337069033**

Safety and Warning Instructions

- Only place the device on a stable, level, and non-slip surface.
- Ensure the mains voltage matches the specifications on the rating plate.
- All packaging materials and protective films must be completely removed before first use.
- After transport, let the device stand upright for at least 12 hours before switching it on to prevent damage to the refrigerant circuit.
- Ensure the ventilation slots are not blocked to maintain optimal air circulation and cooling.
- Do not place the device near heat sources or in direct sunlight.
- Bottles with high alcohol content must be tightly sealed and stored upright in the device.
- Do not use electrical devices or heating sources inside the appliance.
- Never clean the device with a water jet or high-pressure cleaner to avoid the risk of electric shock and short circuits.
- Do not use damaged cables or plugs. Replacement must only be carried out by qualified personnel.
- Always switch off the device and disconnect it from the power supply before cleaning, maintenance, or repairs.
- Clean the door seal with water only and ensure it remains intact to prevent energy loss.
- The refrigerant is flammable; if the cooling circuit is damaged, ventilate the room well and avoid open flames.
- Children must not use the device unsupervised or play near it.
- The device is intended solely for the storage of food; any other use may cause damage and void the warranty.
- Regular cleaning of the condenser by qualified personnel is recommended to extend the device's lifespan.
- Handle the display case with care (fragile glass). Do not lean heavy objects against it or strike it.
- If visible damage or malfunctions occur, immediately stop operation and contact qualified personnel.
