SAFETY & WARNING INSTRUCTIONS

Order No. 475-1000

Item/Model SARO Citrus press
model the Juicer EP7000

GTIN 4017337055500

Safety and Warning Instructions

- Place the device exclusively on a stable, level, and non-slip surface.
- Ensure that the mains voltage matches the specifications on the rating plate.
- Children under 8 years old must not operate the device or be near it without supervision.
- **Do not touch moving parts such as the rotating sieve or pressing components during operation—risk of injury.**
- Use the device only with properly assembled parts such as the bowl, cover, pressing cone, and pressing plate.
- Never clean the device with a water jet or immerse it in liquids, as this poses a risk of short circuits and electric shock.
- Always switch off the device, unplug it, and allow it to cool completely before cleaning, maintenance, or extended periods of non-use.
- The juicer is designed exclusively for juicing citrus fruits and pomegranates. Any other use may cause damage and compromise safety.
- Do not use the device if the cable, plug, or moving parts are damaged. Regular inspection is required.
- The cover must always be closed when the device is in operation to avoid injury.
- After five minutes of intensive operation, allow the device to cool for at least five minutes to prevent motor overheating.
- Clean the juicer immediately after each use to avoid residue buildup from juice or pulp.
- Disconnect the power plug by pulling on the plug, not the cable, to avoid damage.
- Use only original spare parts and accessories to ensure safety and functionality.
- The juicer is intended exclusively for household use and similar applications, such as in hotels or bed-and-breakfast accommodations. Do not use outdoors.
- Keep the juicer away from hot surfaces, moisture, and sharp edges.
- Keep packaging materials out of reach of children, as they pose a suffocation hazard.
- Ensure the motor comes to a complete stop before disassembling or changing parts.
- If visible damage or malfunctions occur, immediately stop operation and contact qualified personnel.
