SAFETY & WARNING INSTRUCTIONS

Order No. **457-1055**

Item/Model **SARO Faucets with sensor models
POSEIDON**

GTIN **4017337055166**

Safety and Warning Instructions

- The device is intended for indoor use only and must be installed on a stable and level surface.
- Installation and repairs must only be performed by qualified personnel to ensure safety.
- The faucet is designed for a minimum operating pressure of 0.5 bar and a maximum pressure of 4 bar. These values must not be exceeded to avoid damage.
- The infrared sensor must not be blocked or covered to prevent interference with the automatic function of the faucet.
- The faucet must perform a self-calibration before the first use—during this time, do not place hands or objects in front of the sensor.
- The device is designed for use with clean, particle-free water. If necessary, a suitable filter must be installed.
- Never clean the device with a water jet or immerse it in liquids, as there is a risk of short circuits and electric shock.
- Before cleaning or maintenance, the device must be disconnected from the power supply.
- Dispose of packaging materials safely and keep them out of reach of children, as they pose a suffocation hazard.
- If visible damage or malfunctions occur, immediately stop operation and contact qualified personnel.
- At the end of its life cycle, the faucet and power supply must be properly disposed of and recycled.
