## SAFETY & WARNING INSTRUCTIONS

Order No. 507-2010

Item/Model SARO Hood for Michelangelo  
model ML935 & ML635L

GTIN 4017337071548

### Safety and Warning Instructions

- The device is intended exclusively for the evacuation of fumes from ovens and when opening the oven door. Any other use is considered misuse and can be dangerous.
- Before first use, clean the hood and ensure that all components are properly assembled.
- Operate the device only in well-ventilated rooms. Ensure that the ventilation slots on the control panel remain unobstructed and are not blocked.
- The hood must not be operated without a filter. Clean the filters regularly to ensure the functionality and safety of the device.
- Some components can reach high temperatures. Do not touch them and keep flammable or heat-sensitive materials away from them.
- Do not place objects on the hood during operation.
- In case of visible damage, unusual operating noises, or malfunctions, immediately stop operation and contact the dealer or qualified personnel.
- Repairs and maintenance should only be carried out by authorized personnel. Use only original spare parts.
- Before cleaning or maintenance, disconnect the device from the power supply and ensure that the hood has cooled completely.
- Do not use abrasive or aggressive cleaning agents or high-pressure cleaners for cleaning.
- Children and unauthorized persons must not be near or operate the hood.
- The device must not be used in explosion-hazardous areas or near flammable materials.
- After long periods of non-use, thoroughly clean the device and check its functionality before reusing it.
- Regular inspections by qualified personnel are recommended to ensure the efficiency and safety of the hood.
- Dispose of packaging materials safely to avoid suffocation hazards.
