

TECHNICAL DATA SHEET

Order No. **484-1075**

Item/Model **SARO Thermo Connect Kit + sensor model 4777**

GTIN **4017337058211**

- Measuring unit for temperature and humidity consisting of sensor (B) and gateway (A)
- Measured values can be transferred to a smartphone (iOS / Android) or the PC
- Alarms can be activated in the event of set deviations
- Sensor range of approx. 100 m (radio frequency 868 MHz)
- Thanks to an internet connection, flexible data retrieval / control is possible everywhere
- Measuring range:
 - -5 / +59.9 ° C (accuracy +/- 1 ° C)
 - 5/95% RH (accuracy +/- 5%)
 - -50 / + 110 ° C (probe) (accuracy +/- 0.5 ° C))
- Scope of delivery:
 - Sensor with digital display and probe with 3 m long cable, including plastic wall bracket (Required batteries 2x AAA each 1.5 V not included)
 - contain)
 - Gateway with plastic wall bracket and 230 volt power adapter + 1.3 meter
 - Router connection cable
- There is no need to manually record values due to the automatically possible PDF / CSV report,
- Can be saved or printed out (can be accessed for up to 90 days)
- Easy installation of the free Thermoconnect app on your smartphone
- or via the free website: monitor.mobile-alerts.eu
- Sensors (B) can be easily connected and controlled via QR code scanning and easy to configure on smartphones
- Expansion of up to 60 sensors possible
- (additional sensor: 1 piece - order no .: 484-1070)

SAFETY & WARNING INSTRUCTIONS

Order No. **484-1075**

Item/Model **SARO Thermo Connect Kit + sensor
model 4777**

GTIN **4017337058211**

Safety and Warning Instructions

- The Thermo Connect Kit is specifically designed for measuring temperature and humidity in professional environments.
- Ensure the sensor is securely mounted to prevent it from falling and sustaining damage.
- Children must not use the device unsupervised, as small parts could pose a choking hazard.
- Only use the recommended battery types for the sensor. Damaged or leaking batteries can cause malfunctions.
- Dispose of packaging materials safely and keep them out of the reach of children.
- The gateway must be connected to a grounded power outlet. Ensure the cable is not damaged or positioned in a way that could cause tripping hazards.
- If visible damage or malfunctions occur, immediately discontinue use and contact qualified personnel.
