SAFETY & WARNING INSTRUCTIONS

Order No. **323-1045**

Item/Model **SARO Refrigerated Table Top Display -
1/3 GN
model VRX 2000/380**

GTIN **4017337323098**

Safety and Warning Instructions

- Place the device exclusively on a stable, level surface.
- Ensure that the mains voltage matches the specifications on the rating plate.
- Do not operate the device near heat sources, direct sunlight, or in damp environments.
- After transporting the device, let it stand for at least 5 hours before switching it on to avoid damage to the cooling circuit.
- Keep ventilation slots and the area around the device clear to ensure proper air circulation and prevent overheating.
- The refrigerant is flammable; avoid damage to the cooling circuit. In case of a leak, ventilate the room well and avoid open flames.
- Never clean the device with a water jet or immerse it in water; there is a risk of short circuits and electric shock.
- Children and unauthorized persons must not operate or misuse the device.
- Do not use damaged cables or plugs; replacements must only be carried out by qualified personnel.
- Before cleaning, maintenance, or prolonged periods of non-use, switch off the device and disconnect it from the power supply.
- The device is intended exclusively for the cooling and storage of food. Misuse can cause damage and void the warranty.
- If visible damage or malfunctions occur, immediately stop operation and contact the dealer.
- Repairs and maintenance must only be performed by qualified personnel.
